ROADMAP TO
ZERO

Don't miss the opportunity to discover the new NTBelle collection

The best new fashion concepts to bet on right now!

A celebration of new purposes, meaningful design and conscious manufacturing. The style will still play with comfort, but with an innovating and contemporary take

From the upcoming season, in addition to evergreen and must-have iconic articles for chinos and 5-pockets, the new collection Elle introduces entirely new lines, such as the spectrum of crêpe fabrics, the knitted effects or the checks.

Also, the army-chic combo, one of the most important cornerstone of fashion, perfectly represented by a brilliant set of especially developed fluid constructions for military look, with Tencel blends and Tencel 100%.

New enzymed treatments are available to supply mill-finished cloths, featuring smooth and silky touch, shiny and extremely clean aspect.

Furthermore a niche capsule of bistretch bulls and luxury denims, top of the range, is reserved to real connoisseurs. A wide assortment of textures and a precious archive of prints assures the highest level of customization, on a variety of bases (satin, twill, moleskin, cord etc..).

Moreover, the élite first class selection, the exclusive and outstanding core of NTB supply, deserves a particular note, with super rich paper touch and compact 2plies of exquisite extrafine Supima cotton weave. Moleskins and cords in Fall-Winter, linen blends and superlites in Spring-Summer complete the assortment.

Finally, a separate chapter dedicated to the groundbreaking Tech-Up fabrics featuring the most innovative series of high-performing technical articles for a sophisticated and elevated look.

The perfect balance of special fibers is able to combine the top comfort of the stretch (and bistretch) with the richest handfeel, an easy-care maintenance and sustainable properties.

A contemporary collection constantly evolving and capable of anticipating the changing scenarios and markets.

**A collection that combines a hip look with high quality yarns perfect for tailoring, casualwear, streetstyle, outerwear:
Total Look by NTBelle**

**Simple to wear, easy to combine and flattering for every shape.
Whether is for loose fit or superskinny, the perfect fabric just has
to be picked out**

Go beyond content: the story

It's always a good idea to go back to basics
