

ALBANO MORGADO, S.A.

WINTER 2022/2023

Since 1927

*“Where I lost my coat is where
I have to find it again”*

*Albano Antunes Morgado
Founder of the Company, 1927*

Founded in 1927, **Albano Morgado, S.A.** is a Portuguese manufacture specialized in carded and worsted fabrics, that currently exports throughout the world. Focused on the quality of its products, the company keeps adjusting itself to the global reality and always seeks to respond to the needs of the customers. As a vertical company, Albano Morgado manages and supervises every stage of production – from Carding, Spinning, Warping, Weaving, Dyeing to Finishing – which makes it possible to improve lead-times.

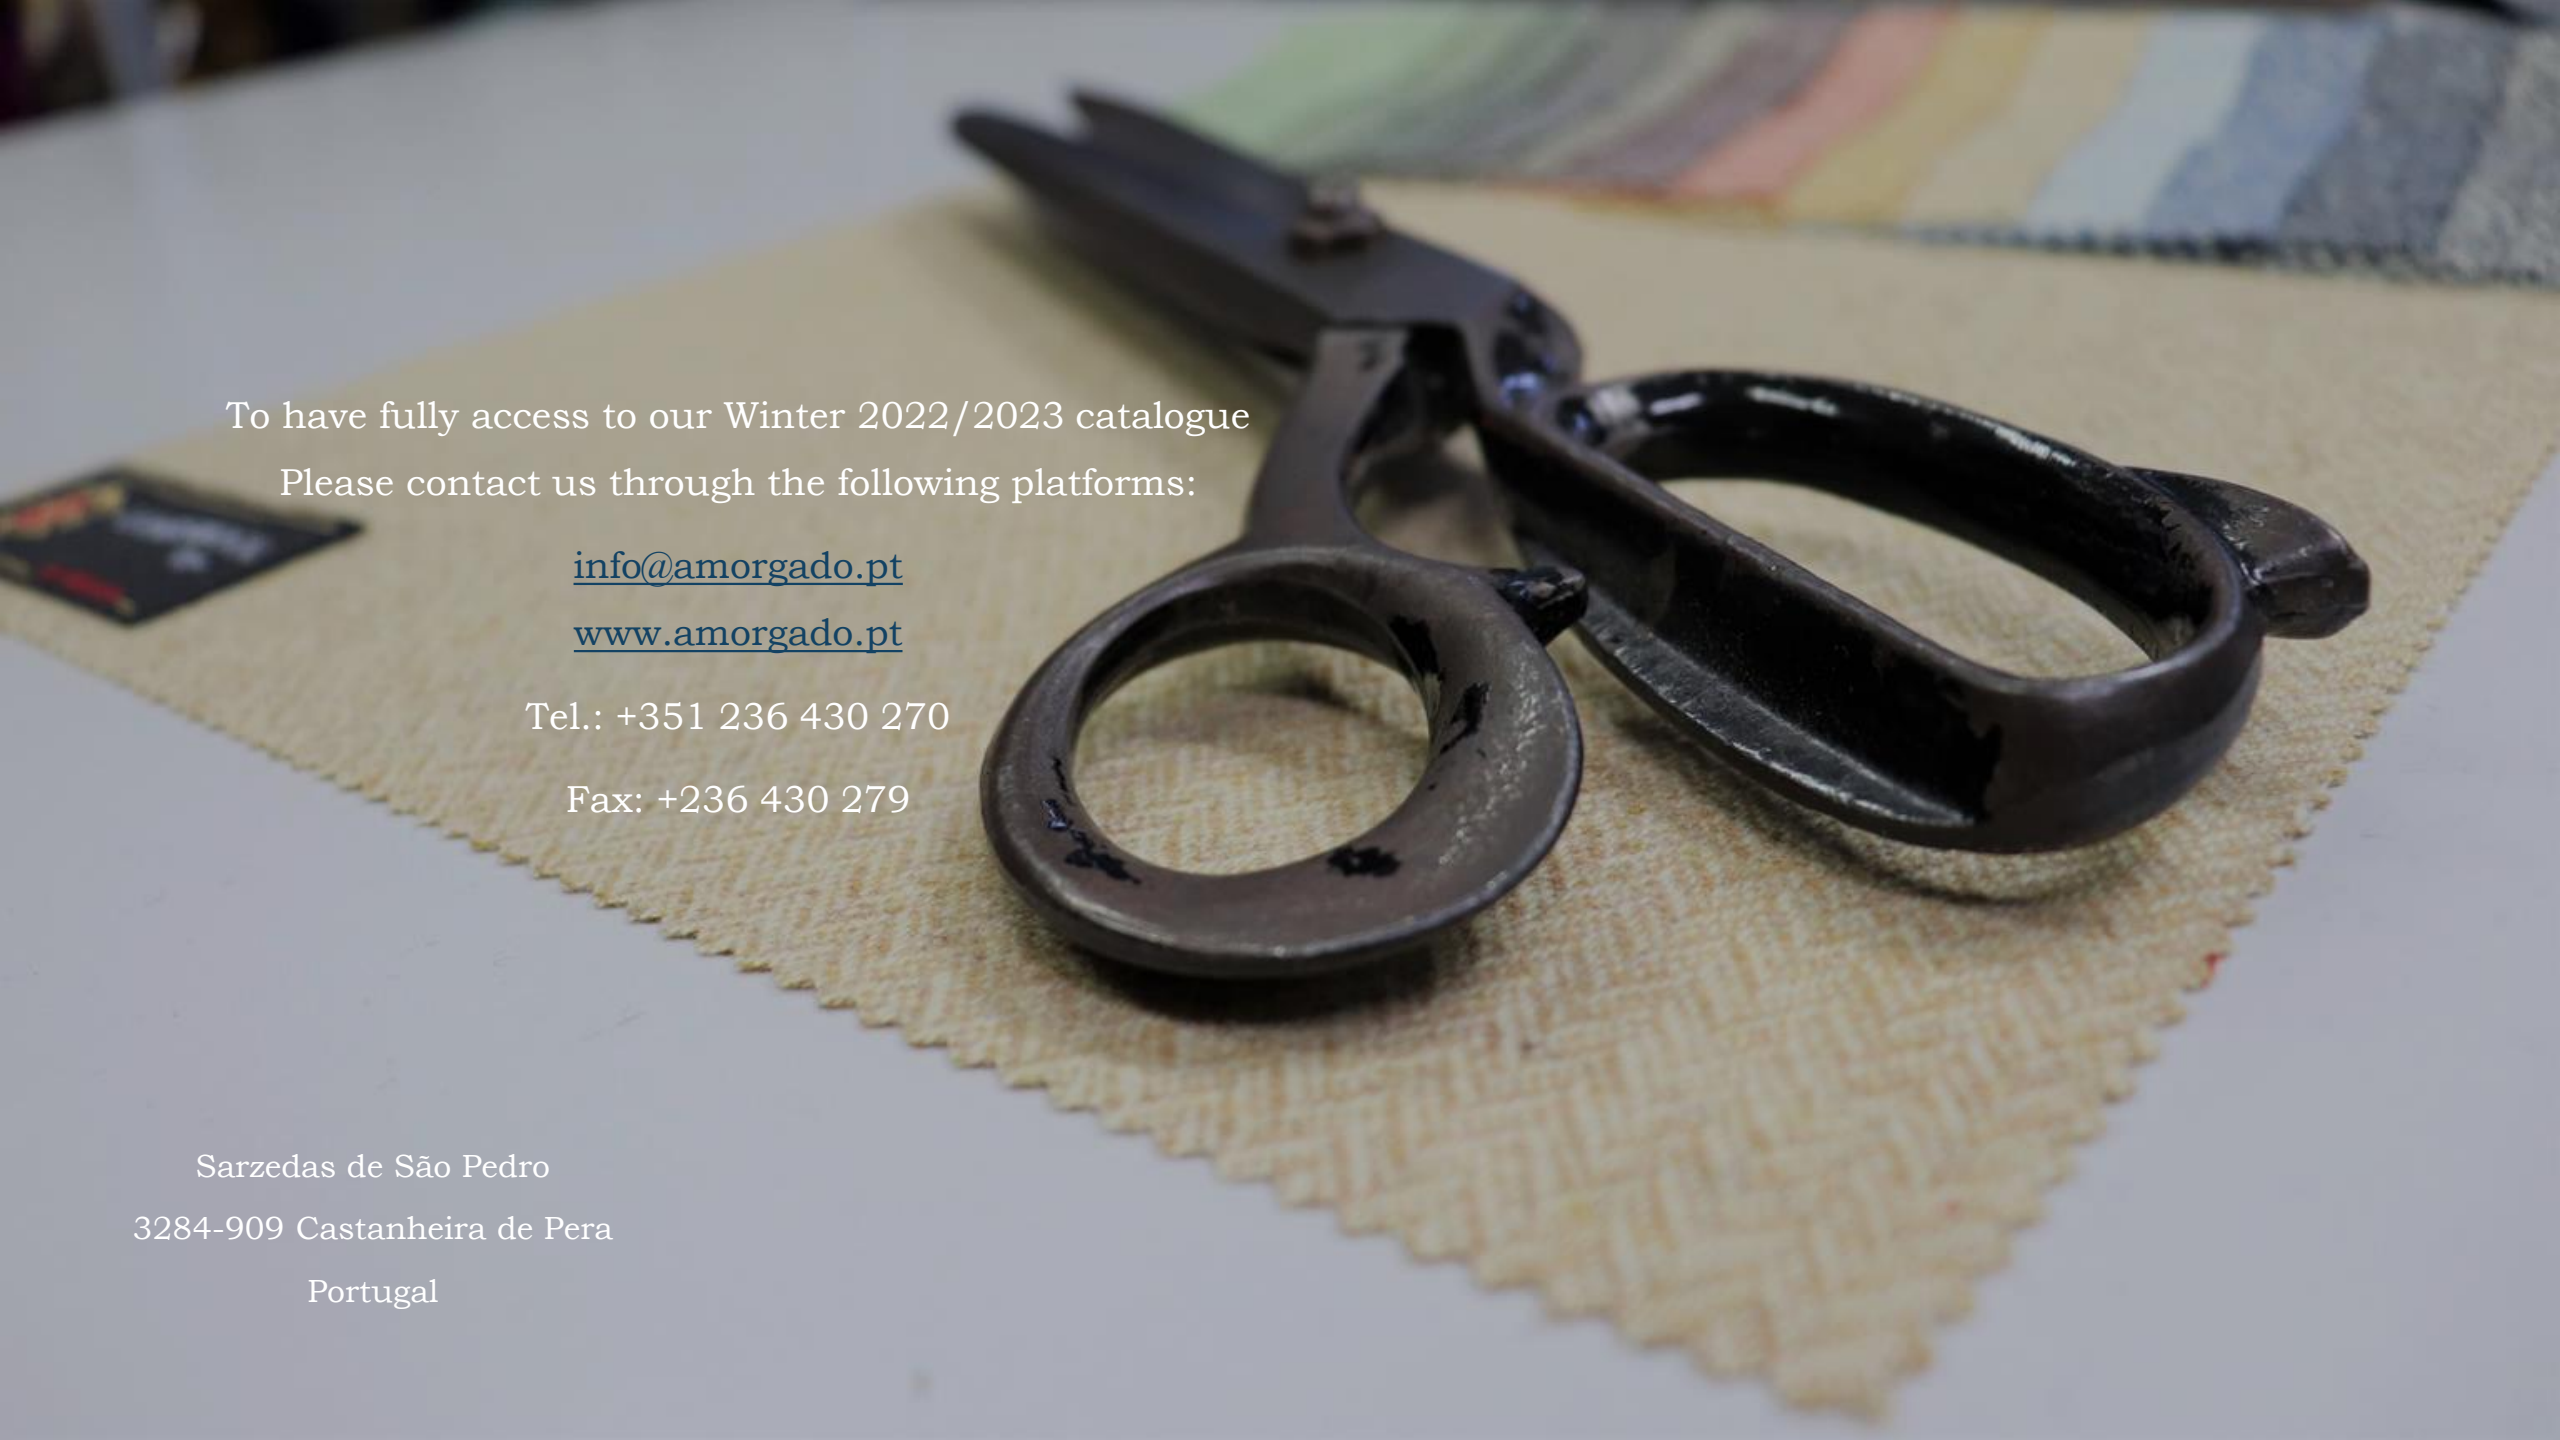

For the Winter Season 2022/2023, motivated by the desire to do more and better, Albano Morgado presents a collection that seeks to serve comfort and quality through a wide range of soft fabrics with colors that combine tradition with modernity.

And because environmental awareness is an imperative for the well-being of future generations, we decide to be part of this challenge by creating a range of flannels in different patterns and shapes with reused fibers, reducing the waste production.

From checks to herringbones, passing through bars and stripes, quality and dedication are our brand.
